

# uReport™

Reporting back to the Credit Bureau can be a horrendous task (both time consuming and costly) - often with little reward.

Wouldn't it be convenient to simply identify the fields and time frame (such as monthly or bill cycle) you wish to report back and then outsource the entire process?

It is truly that easy with Decisioning Solutions' uReport™. Simply send over extracts from your billing system in their current form and we take care of the rest. This process ensures that information is passed to third party data repositories of your choice seamlessly, without capital cost allocation, and without ongoing IT intervention.

uReport™ - Making reporting data back to third party data repositories simple.
